This Pt's tonsils appear inflamed & are a little enlarged. The cause of this condition is the fact that he is a constant mouth breather owing to a deflected nasal septum.

I am of opinion that the proper treatment in this case is to deal with the nose by operation when no further trouble with the tonsils ought to occur. In a week or so, when the tonsils are inflamed has subsided, I will gladly take him in a operate, if you can send him into this Hospital.

Dear Capt Marshall

I enclose receipt for last weeks 30p. I was being in the company battery office for 4 days so that was under the impression that it had not been, or had been paid, hence my letter.

I received here yesterday and find that we are not wanted for 2 weeks so I presume we shall hang about this beautiful but abominably slow place until such time as we are required to start work.

On Thursday next we are being granted 3 days leave and I should be much obliged if you could let me have my cash by Wednesday night as I am going to try to mangle through a sandbag of hell. I should also like to

suspend my attachment for the period
and if this can be arranged to
receive what is due with next week's
pay.

Trusting that this will be

O.K.

Yours sincerely
