Your information with regard to this man is correct. The special instructions covering the case were: That this man, who is a Rhodes Scholar, was due, in the event of his being discharged, at Oxford shortly, and were he retained to go through the regular routine the chance of visiting his home would be missed. These circumstances were notified to the Minister of Militia by the Member for his District, and the Minister of Militia asked me to, if possible, arrange for a special Board and waive any formalities which could be dispensed with in order to facilitate the man's return to his home.

Dear Major Dimwell,
I was discharged from the Regiment in Sept 1917, and after spending a year at home I came here this October to take up the Rhodes. Finding that my arm gave me a great deal of pain, with so much writing I went to see Lt.-Col. Parker R.A.M.C, and he advises me to get some sort of splint which they turn out here in Oxford.

Can you tell me if our Govt pays for this thing and how I am to go about the getting of it.

Opinion of the Medical Board.

NOTES.—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as, in the event of the man being invalided, it is essential that the Commissioners of Chelsea Hospital should be in possession of the most reliable information to enable them to decide upon the man's claim to pension.

(ii.) Expressions such as "may," "might," "probably," &c., should be avoided.

(iii.) The rates of pension vary directly according to whether the disability is attributed to (a) active service, (b) climate, or (c) ordinary military service. It is therefore essential when assigning the cause of the disability to differentiate between them (*see* Articles 1162 and 1165, Pay Warrant, 1918).

(iv.) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

(v.) A disability is to be regarded as due to climate when it is caused by military service abroad in climates where there is a special liability to contract the disease.

20. (a) State whether the disability is the result of (i.) active service, (ii.) climate, or (iii.) ordinary military service.

Active service

(b) If due to one of these causes, to what specific conditions do the Board attribute it?

G. S. S.

21. Has the disability been aggravated by

(a) Intemperance?

no

(b) Misconduct?

no

(c) Any of the conditions mentioned in question 20, and if so, which?

-

22. Is the disability permanent?

Yes

23. If not permanent, what is its probable minimum duration?

-

To be stated in months.

24. To what extent is his capacity for earning a full livelihood in the general labour market lessened at present?

Not improved.

In defining the extent of his inability to earn a livelihood, estimate it at $\frac{1}{2}$, $\frac{1}{4}$, $\frac{2}{3}$, or total incapacity.

24A. Is the man suffering from a disability which would obviously, as far as you can judge, cause him to be rejected by an Approved Society under the National Insurance Act?

no

25. If an operation was advised and declined, was the refusal unreasonable?

vide 16

26. Do the Board recommend

(a) Discharge as permanently unfit, or

Yes

(b) ~~Change to England?~~

23a. Is he fit for discharge from the service as an out-patient? and will he require out-patient treatment on discharge from Hospital?

Yes Yes

NOTE.—This Army Form will be given to all patients in Hospital to complete who are suffering from a disability sufficiently serious to make discharge probable. In the event of the man being brought before a Medical Board for discharge, this Army Form will be produced to the Board, together with other documents laid down in para. 4 (ii), item 3, of Army Council Instruction No. of 1916.

When the soldier who is to be brought before a Medical Board is not a patient in Hospital, and in substitution cases, these instructions will be carried out by the man's C.O.

Descriptive Return of a Soldier discharged on account of Disability.

INSTRUCTIONS.—This form is to be completed in the case of every discharged soldier whose claim to pension, on account of disability, is to be submitted for the consideration of the Commissioners of Chelsea Hospital.

Statement A should be completed in the Hospital at which the man is attending at the time of his examination by a Medical Board, and the soldier should be given a full opportunity of examining it, as, if awarded a pension, his subsequent identification depends on his confirming this declaration. The "Rank," "Station," and "Date" should be in his own handwriting.

The Form will then be attached to the Proceedings of the man's Medical Board, to be completed by the Officer i/c Records when received by him, and will be forwarded by him, together with the remainder of the man's documents, to the Secretary, Royal Hospital, Chelsea, London, S.W.

Changes occurring in the description subsequent to the date of admission to pension should be noted in red ink.

Opinion of the Medical Board.

NOTES.—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as in the event of the man being invalided, it is essential that the Commissioners of Chelsea Hospital should be in possession of the most reliable information to enable them to decide upon the man's claim to pension.

(ii.) Expressions such as "may," "might," "probably," &c., should be avoided.

(iii.) The rates of pension vary directly according to whether the disability is attributed to (a) active service, (b) climate, or (c) ordinary military service. It is therefore essential when assigning the cause of the disability to differentiate between them (see Articles 1162 and 1165, Pay Warrant, 1913).

(iv.) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

(v.) A disability is to be regarded as due to climate when it is caused by military service abroad in climates where there is a special liability to contract the disease.
