

Knee, Henry, Regt. No. 2052

Military Medal

London Gazette, 19/2/18

During operations near Marcoing on November 30th 1917, this man showed great gallantry in running with messages under heavy machine gun and shell fire. Whenever he was in Brigade Headquarters and a message had to be sent by runner, although not his turn, he invariably volunteered to take the message and on all occasions his courage and cheerfulness were conspicuous.
