- (e) Avoid dubiety-"perhaps" "possibly" "might" and the like.
- (f) Only sufficient clinical data need be given to establish the degree of disability and assist the Board in arriving at a decision.

Enlisted on July 16th., 1917. Has always been in good health but appears stupid and cannot learn the movements of the drill. He complains of a noise in the head and giddiness at times. Has a poor memory

 What is his present condition? (This is the important question. Be brief—the clearer the case the less need be written. Read note f above.) 	Says he has a "bating" in the head. Sgt. Whelan says he is too stupid for anything. He cannot learn any of the movements of the drill and is only a muisance to the Company. His general health is good
