Sir:-

In accordance with your request I have made enquiries in the matter of treatment of the marginally noted man, and attach reports herewith.

It is extremely regrettable that such importance should be attached to the statement of a possibly delirious man, and yet that no record should be sent until after the man's death.

SENIOR MEDICAL OFFICER

Sept. 2nd., 1918.

From:- Acting Medical Officer,
Depot.

To:- Senior Medical Officer,
Depot.

Sir:-

We beg to report on a most extraordinary communication from Rev. L. Curtis, which has been forwarded by the Director of Medical Services to Medical Department, Depot, during your absence.

This letter alleges neglect, carelessness and incompetence on the part of the visiting Medical Officers at the Barracks. Rev. Curtis refers to the case of 5435 Pte. J. Mercer who died at the General Hospital, and quotes an imaginary conversation, which he claims took place at the Barracks, in which one of the Medical Officers is alleged to have ridiculed the sufferings of a sick man and did nothing for him. This is a most serious accusation to make.

Rev. Curtis states that Pte. Mercer was "confined to bed in Barracks for about a fortnight", thus suggesting that the man was left in bed in his quarters and neglected. This is an entirely false and ridiculous statement. The general tone of the letter would further seem to insinuate that the number of deaths, which have occurred amongst the men under military training here, were due to carelessness and incompetence on the part of the Military Authorities and Medical Officers at the Depot.

The facts of the case of Pte. Mercer are as follows:- This man reported sick on Sick Parade on the morning of July 13th. 1918. He was seen and examined by Dr. A. C. Tait who found that he had a temperature of 100 degrees, cough and pain in side. He was at once removed from Barracks and put in Barracks Hospital and placed under close observation in bed. The necessary diet and treatment were ordered for the case and his temperature taken morning and evening and entered in the Hospital Record. Dr. Burden examined him daily and discussed the case with Major Paterson and Dr. Tait, as the signs upon auscultation were very unusual. Upon his presenting further symptoms indicating extending serious lung lesion he was transferred by Dr. Tait to the General Hospital. (N.Y.D.) on 25/7/18 and his condition reported to Major Paterson.

At the Hospital his condition was diagnosed temporarily as 'Pleuritis'. His condition during the 13 days in Hospital at Barracks although not considered of a very serious nature was carefully watched and not in the least liable to occasion any vulgar remarks as quoted by Rev. Curtis.

His symptoms before transfer to General Hospital did not allow of a definite diagnosis, as the case may have been one of developing Acute Pulmonary Tuberculosis or Interstitial Broncho-Pneumonia, the most serious signs not showing until patient had been ill for some days. His condition at any rate did not warrant his being transferred to the General Hospital even one day before he was sent there, so that any insinuation that this man was kept too long in Barracks and was not treated for fourteen days in an absolute falsehood, and such a statement could only be made by a person absolutely ignorant of the details of ordinary medical routine in a Military Barracks.

We consider the charges of neglect etc. most unfair and uncalled for.

We have the honour to be,
Sir,
Your obedient servants,

Dear Mr. Bennett,

There is a matter to which I desire to invite attention. During the spring, a large number of young men receiving military training in this city died. For a time indeed the city was almost alarmed, there were so many. If I remember correctly you were not then in the country. But a little incident which came to my attention of late casts a suggestive light upon the situation. Some two or three weeks ago I was requested to visit a young man named Mercer, sick in the General Hospital. He was suffering from Pleuritis. His record showed that for about a fortnight he had been confined to bed in the barracks. I asked him if no doctor visited him there. He replied "Yes, doctors came, but did nothing for me." One, he said, had questioned him respecting his illness - and when he told him where the pain was, he said, "That was where the milk didn't come out," thus turning the fellow's suffering to ridicule. When Mercer told me that, I remarked, "I hope you may recover, as if you don't, I shall have to request an investigation." On Sunday last his remains were taken home for interment; and now it

Mrs. Wm. Mercer,
Port Albert

Dear Madam:-

I have received the Cemetery Register Form on account of No. 5435 Pte. Jasper Mercer, forwarded to you some time ago for completion, and also receipt for headstone which you have purchased from Muir's Marble Works.

With reference to your request that refund be made for this stone by this Department instead of furnishing another one. I beg to state that the work of purchasing and having these memorials engraved is being done by the Imperial War Graves Commission; and I have already referred to them several applications for refund where the next of kin took it upon themselves to erect headstones over the graves of deceased soldiers, but refund was not allowed. I might say that eventually this Department will receive from the Imperial War Graves Commission a headstone for every deceased soldier buried in Newfoundland, regardless of the fact that some of them may already have their graves permanently marked.

I might suggest that you communicate with Muir's Marble Works and explain the situation to them with a view to getting a refund from them for the stone you have purchased.

I am returning the receipt herewith together with the form which, in the event of your accepting the standard memorial, I should be glad if you will complete and return, please

Yours faithfully,

Lieut.-Col.,

Chief Staff Officer.
