Dear Sir:

Hilliard Sheppard late #1681, of Royal Nfld. Regiment, was unfortunate to have his house destroyed by fire about two months ago. He lost practically all his furniture and effects, including his War Medals and Discharge papers.

When his Excellency the Governor inspected the Great War Veterans on May 31st, last the above was brought to his attention and he instructed me to write the Colonial Secretary to enquire the possibility of Mr. Sheppard obtaining duplicate medals and Discharge papers.

As I am sure the Colonial Secretary will have to refer to you for the necessary information, I am writing you direct. Can you kindly inform me at your early convenience the manner of procedure to replace Mr. Sheppard's loss as regards his medals and discharge.

For your information Mr. Sheppard joined the Regiment about June or July 1915, and was discharged April 1917 being unfit for further war service.

Yours faithfully,

Opinion of the Medical Board.

Notes.—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as the event of the man being invalided, it is essential that the Commissioners of Chelsea Hospital should be in possession of the most reliable information to enable them to decide upon the man's claim to pension.

(ii.) Expressions such as "may," "might," "probably," &c., should be avoided.

(iii.) The rates of pension vary directly according to whether the disability is attributed to (a) active service, (b) climate, or (c) ordinary military service. It is therefore essential when assigning the cause of the disability to differentiate between them (see Articles 1162 and 1165, Pay Warrant, 1913).

(iv.) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

(v.) A disability is to be regarded as due to climate when it is caused by military service abroad in climates where there is a special liability to contract the disease.

20. (a) State whether the disability is the result of (i.) active service, (ii.) climate, or (iii.) ordinary military service.

Active Service

(b) If due to one of these causes, to what specific conditions do the Board attribute it?

G.S.W.

21. Has the disability been aggravated by

(a) Intemperance?

No

(b) Misconduct?

No

22. Is the disability permanent?

Yes

23. If not permanent, what is its probable minimum duration?

To be stated in months.

24. To what extent is his capacity for earning a full livelihood in the general labour market lessened at present?

Lessened by one half.

In defining the extent of his inability to earn a livelihood, estimate it at $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$, or total incapacity.

Is this man suffering from a disability which would seriously, as far as you can judge, cause him to be rejected by an Approved Society under the National Insurance Act? No

25. If an operation was advised and declined, was the refusal unreasonable?

Vide 16

26. Do the Board recommend

(a) Discharge as permanently unfit, or

Yes

(b) Change to England?

Yes

Opinion of the Medical Board.

NOTES.—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as, in the event of the man being invalided, it is essential that the Commissioners of Chelsea Hospital should be in possession of the most reliable information to enable them to decide upon the man's claim to pension.

It is therefore essential when assigning the cause of the disability to differentiate between them (*see* Articles 1162 and 1165. Pay Warrant, 1913).
